

## Today's Innovators, Tomorrow's Technologies

Entwined's mission is to be a valued resource, not only helping clients to determine and prioritize their business initiatives, but also being able then to design and deploy a comprehensive solution that achieves and exceeds their requirements while still meeting their budgetary goals.

**Entwined Technologies, Inc.** (Entwined) is a Veteran-Owned Small Business focused on Information Technology (IT) Solutions serving the Federal Government. Since February 2002, Entwined has been delivering best of breed IT solutions that enable our clients to increase their efficiency, productivity, and competitiveness. Our team is comprised of dedicated, industry-leading individuals that provide "Subject Matter Expertise" to all of your IT needs.

We are **Today's Innovators** using **Tomorrow's Technologies**.

Entwined currently provides Federal Government clients with Enterprise Operations and Maintenance (O&M), Server and Service Virtualization, Cyber Security Infrastructure Design / Operations and Maintenance (O&M), Storage Area Network (SAN) Design, Data Center Consolidation, and Disaster Recovery / Continuity of Operations (DR / COOP) services for mission critical networks that support over 20,000 users globally.
